1. Introduction

The economic performance of a nation or state is evaluated based on its status across various economic indicators. In the context of a state, the most important used indicators are Gross State Domestic Product (GSDP) and Per Capita Income (PCI).

WHAT IS GROSS STATE DOMESTIC PRODUCT AND WHY DOES IT MATTER?

- GSDP/GDP is the value of all the final goods (e.g. cars, food, furniture) and services (e.g. services provided by barbers, taxi drivers, waiters) produced within the state's boundaries in a specific time period (usually a year).
- It is a comprehensive scorecard of a state's economic health, and can be used to estimate the size of the economy, and its growth rate.
- GSDP/GDP helps policymakers, investors, and businesses make decisions by understanding an economy's health.
- When GDP is growing, workers and businesses are generally better off than when it is not.
- When GDP is shrinking, employment often declines.
- The tax collections of a state are strongly linked with its GSDP.

There are two measures of GSDP:

- GSDP at current prices, or nominal GSDP is calculated for prices prevailing in that particular time period. Changes in nominal GSDP therefore occur on account of changes in both prices as well as quantity of final goods and services.
- GSDP at constant prices or real GSDP eliminates the contribution of inflation to the nominal GSDP growth by using prices of a selected base year for calculations. Changes in real GSDP therefore reflect changes in actual output produced, since it adjusts for the effects of inflation.

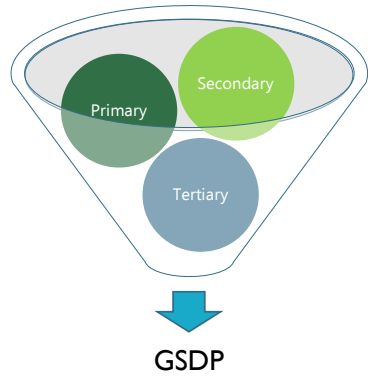

WHAT IS PER CAPITA INCOME, AND WHY IS IT RELEVANT?

- Per Capita Income (PCI) is the metric for determining a state's economic output or average income for each person residing within the state.
- It measures the amount of money that would be available per person if the total value of all goods and services produced in the economy were to be divided equally among all citizens.
- Per Capita Income is often used as a measure of the standard of living in a state.
- However, it does not account for inequalities in income distribution in the society.

SECTORS CONTRIBUTING TO GSDP

For any economy, economic activities, GSDP, and labour-force engagement can be divided into 3 major sectors, which are further divided into sub-sectors for the purpose of GSDP calculation:

- (i) Primary (Agriculture) – 5 sub-sectors
- (ii) Secondary (Industry) – 3 sub-sectors
- (iii) Tertiary (Services) – 6 sub-sectors

WHAT IS GSVA?

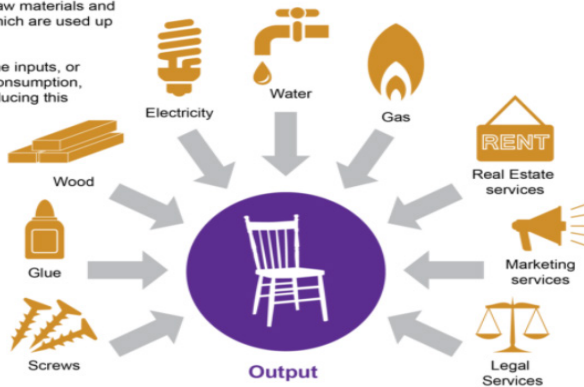

- GSVA, short for Gross State Value Added, is defined as the rupee value of the goods and services produced in a state, minus the cost of all inputs and raw materials directly attributable to that production.
- It is the output of the state less the intermediate consumption, which is the difference between gross output and net output.
- GSVA is an economic productivity metric that measures the contribution of a corporate subsidiary, company, or municipality to an economy, producer, sector, or region.

$$\text{Output} - \text{Intermediate consumption} = \text{GVA}$$

Intermediate consumption

is the cost of raw materials and other inputs which are used up in production.

The value of the inputs, or intermediate consumption, going into producing this chair are £30.

Output
is the goods or services which are produced.
In this case the chair is the output and is worth £50.

This means that the GVA from this chair is:

$$£50 - £30 = £20$$

HOW ARE GSVA AND GSDP LINKED?

- Gross State Value Added (GSVA) is a very important measure, which is used for calculation of the Gross State Domestic Product (GSDP).
- GSVA measures the contribution made by an individual producer, industry or sector to the GSDP, and is considered to be a better measure of the economic welfare of the population, because it includes all primary incomes.
- GSVA is related to GSDP through taxes and subsidies on products.
- It adds back subsidies that governments grant to certain sectors of the economy and subtracts taxes imposed on others, i.e.

$$\text{GSVA} = \text{GSDP} + \text{Subsidies on products} - \text{Taxes on products}$$

This publication provides figures for the GSDP of Telangana over time as per Provisional Estimates (2022-23), its sectoral breakup, and a comparison of the GSDP of Telangana with the GDP of India and with the GSDP of other states. A comparison of the state's PCI with India's PCI, Inter-state comparisons and district level data is also provided.

Such analysis assists policy makers in designing the necessary interventions for further growth.

2. Key Highlights

- According to Provisional Estimates, Telangana's Gross State Domestic Product (GSDP) at current prices in 2022-23 is Rs. 13,13,391 crore, with a growth of 16.3% higher than India's growth 16.1 %.
- Per Capita Income (PCI) of Telangana at current prices in 2022-23 is Rs. 3,12,398, which is Rs 1,40,122 higher than the National PCI (1,72,276).
- Based on the Compound Annual Growth Rate (CAGR) of PCI at current prices for Telangana and India from 2014-15 to 2022-23, the average citizen in Telangana can expect his/her income to double in 5 to 6 years, whereas the average citizen in the country as a whole would have to wait for about 8 years for their income to double.
- As per the NFHS 2019-21 report, the state ranks 1st among all states (along with Tamil Nadu and Kerala) in terms of equitable wealth distribution, with a Gini coefficient of 0.10.
- Telangana ranked 3rd in Per Capita Income in 2022-23 according to the Ministry of Statistics and Programme Implementation (MoSPI).

Sectoral Analysis 2022-23

- The Agriculture and Allied sectors in Telangana achieved a year-on-year growth in Gross Value Added (GVA) (current prices) of 15.8% between 2021-22 and 2022-23. This is a 9.8 percentage points increase in the growth rate over the 2021-22 growth rate. Since the sector employs 45.8% of the working population of the state, its economic success is crucial to improving the living standards in Telangana.
- The Industrial sector in Telangana achieved a growth of 10.0% in 2022-23.
- The Services sector – the primary contributor to the state's economic growth – witnessed a remarkable growth of 20.6% in its GVA at current prices in 2022-23 which is higher than overall India's growth at 17.3%.

Formulas

$$\text{Per Capita Income (PCI)} = \frac{\text{Net State Domestic Product}}{\text{Mid Year Population}}$$

Net State Domestic Product is calculated by subtracting Consumption of Fixed Capital (CFC) from Gross State Domestic Product

$$\text{Compound Annual Growth Rate (CAGR)} = \left[\left(\frac{\text{EV}}{\text{BV}} \right)^{\frac{1}{n}} - 1 \right] \times 100$$

BV Beginning value EV Ending value n Number of years

Rule of 72: No. of years required to income double = 72 / CAGR

GSDP = GVA + Product taxes - Product subsidies

NSVA = GVA - CFC

NSDP = NSVA + Product taxes - Product subsidies

GSVA is defined as the rupee value of the goods and services produced in a state, minus the cost of all inputs and raw materials directly attributable to that production. It is the output of the state less the intermediate consumption, which is the difference between gross output and net output.

$$\text{GSVA} = \text{Output} - \text{Input}$$

or

$$\text{GSVA} = \text{GSDP} + \text{Subsidies on products (SP)} - \text{Taxes on products (TP)}$$

Telangana vs. All India - GSDP /GDP at Current Prices

At current prices, the Gross State Domestic Product (GSDP) of Telangana was Rs. 13.13 lakh crores and GDP of India was Rs. 272.40 lakh crores in 2022-23 (PE). Between 2012-13 and 2022-23, the average annual GSDP growth of Telangana was 12.6% and GDP of India was 11.0%. Between 2014-15 and 2022-23, the average annual GSDP growth of Telangana was 12.7% and GDP of India was 10.5%.

| | GSDP/GDP (Rs. Crores) | | Growth rate (%) | | Share of Telangana (%) |
|--|-----------------------|-------------|-----------------|-------------|------------------------|
| | Telangana | All-India | Telangana | All-India | |
| 2011-12 | 3,59,434 | 87,36,329 | | | 4.1 |
| 2012-13 | 4,01,594 | 99,44,013 | 11.7 | 13.8 | 4.0 |
| 2013-14 | 4,51,580 | 1,12,33,522 | 12.4 | 13.0 | 4.0 |

Per Capita Income at Current Prices

The Per Capita Income of Telangana increased from Rs. 91,121 in 2011-12 to Rs. 3,12,398 in 2022-23, while that of India increased from Rs. 63,462 to Rs. 1,72,276 in this period. From 2012-13 to 2022-23, the AAGR of Per Capita Income in Telangana was 12.0%, in comparison to India's AAGR of PCI of 9.6% in the same period. From 2014-15 to 2022-23, the AAGR of Per Capita Income in Telangana was 12.2%, in comparison to India's AAGR of PCI of 9.2% in the same period.

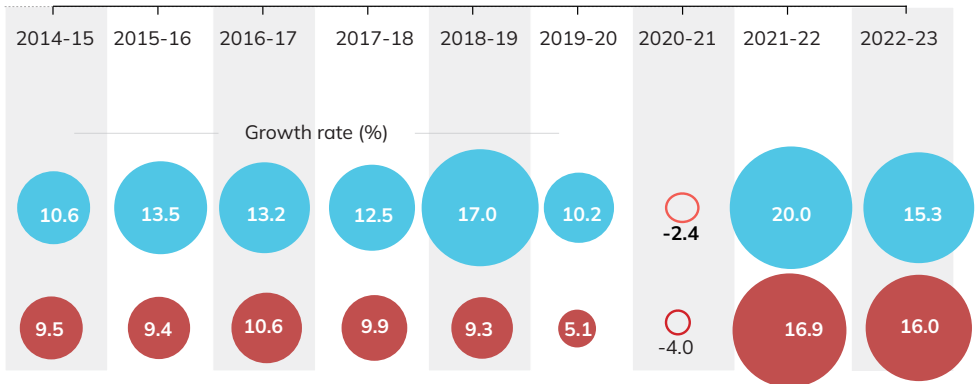

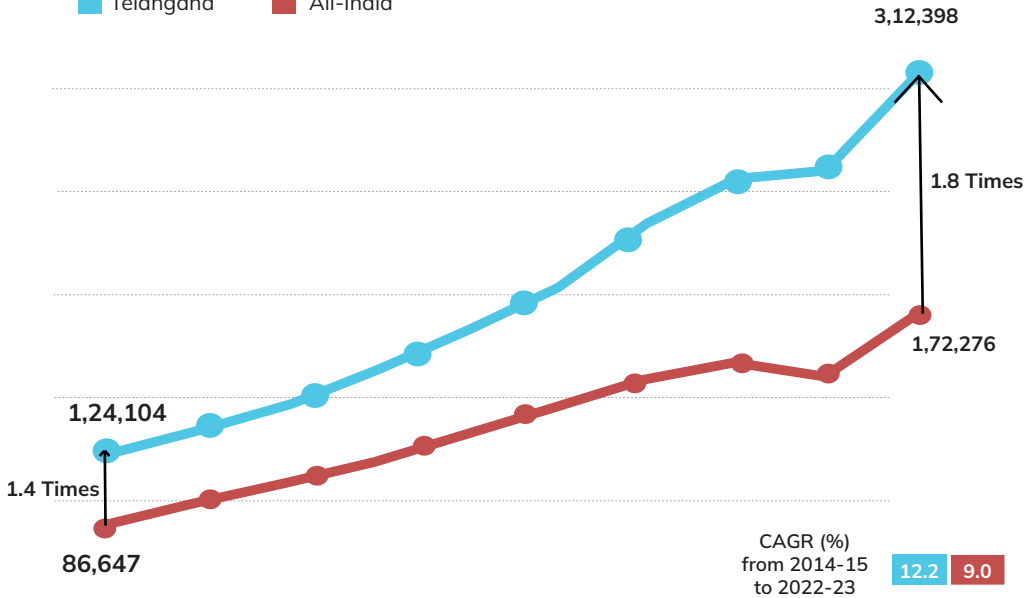

| | Per Capita Income (Rs) | | Growth rate (%) | |
|---|------------------------|-----------|-----------------|------------|
| | Telangana | All-India | Telangana | All-India |
| 2011-12 | 91,121 | 63,462 | | |
| 2012-13 | 1,01,007 | 70,983 | 10.8 | 11.9 |
| 2013-14 | 1,12,162 | 79,118 | 11.0 | 11.5 |
| 2014-15 | 1,24,104 | 86,647 | 10.6 | 9.5 |
| 2015-16 | 1,40,840 | 94,797 | 13.5 | 9.4 |
| 2016-17 | 1,59,395 | 1,04,880 | 13.2 | 10.6 |
| 2017-18 | 1,79,358 | 1,15,224 | 12.5 | 9.9 |
| 2018-19 | 2,09,848 | 1,25,946 | 17.0 | 9.3 |
| 2019-20 (TRE) | 2,31,326 | 1,32,341 | 10.2 | 5.1 |
| 2020-21 (SRE) | 2,25,663 | 1,27,065 | -2.4 | -4.0 |
| 2021-22 (FRE) | 2,70,839 | 1,48,524 | 20.0 | 16.9 |
| 2022-23 (PE) | 3,12,398 | 1,72,276 | 15.3 | 16.0 |
| AAGR (%) (From 2012-13 to 2022-23) | | | 12.0 | 9.6 |
| AAGR (%) (From 2014-15 to 2022-23) | | | 12.2 | 9.2 |

Telangana's PCI has been higher than India's overall PCI since 2014-15, and the gap has been increased from 1.4 times in 2014-15 to 1.8 times in 2022-23.

Sectoral highlights - Current Prices

- The contribution of the primary sector to GSVA of Telangana has consistently improved from 19.5% in 2014-15 to 19.8% in 2022-23.
- Growth rate of primary sector in 2022-23 (14.2%) is more than, 6 times of its growth rate in 2015-16.
- The Gross Value Added by primary sector of Telangana grew by 165% from 2014-15 to 2022-23.
- Since state formation, the average contribution of the secondary sector to the GSVA of Telangana has been 18.5%.
- Growth rate of the secondary sector is 10.9% in 2022-23 and the Gross Value Added by the Secondary sector of Telangana grew by 135% from 2014-15 to 2022-23.
- Electricity, Gas , Water Supply and Other Utility Services registered the highest growth of 199% from 2014-15 to 2022-23 among all the sub-sectors of secondary sector.
- The tertiary sector /service sector remains the dominant sector of the state's economy accounting for 62.9% of the state GSVA in 2022-23.
- In 2022-23, the growth rate of the service sector is 20.6%, and GVA of all sub-sectors is 2 to 3 times value in 2014-15.
- Among all the sub-sectors comprising the tertiary sector, the 'Real Estate, Ownership of Dwelling and Professional Services sector' is the highest contributor accounting for 22.6% of the value added by the services sector.

Broad sector wise - Contribution (%)

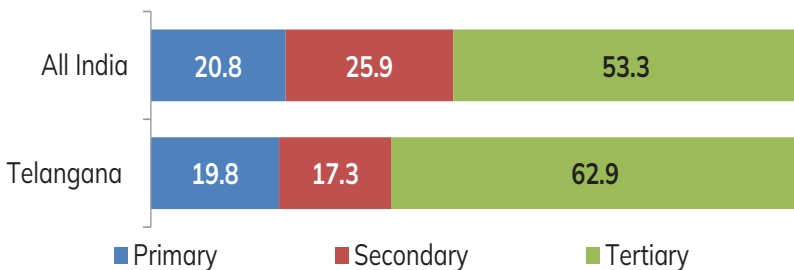

Broad sector wise - Growth Rate (%)

Telangana vs. All-India

- Contribution of the tertiary sector to the total GSVA in Telangana in 2022- 23 was 62.9%, 9.4 percentage points higher than the contribution of the tertiary sector to All India's GVA at 53.3%.
- For both Telangana and India the 'Financial, Real Estate, Ownership of Dwelling and Professional Services' sub-sector is the highest contributor to the GVA in 2022-23.

Sectoral highlights - Constant (2011-12) Prices)

- Primary sector contribution to GSVA of Telangana is 17.4% in 2022-23.
- In 2022-23, primary sector growth rate is 7.3% which is higher than the previous year growth of 3.3%.
- GVA of the primary sector grew by 69% from 2014-15 to 2022-23.
- The secondary sector is contributing around 21.4% to the GSVA of Telangana in 2022-23 and 'Manufacturing' is highest contributing sub sector in the secondary sector accounting for 14.8% of the GSVA.
- The growth rate of the secondary sector in 2022-23 is 3.5%.
- GVA of the secondary sector grew by 81% from 2014-15 to 2022-23.
- The tertiary sector is the highest contributor to the GSVA of Telangana with an average contribution of 61.5% from 2014-15 to 2022-23.
- This sector achieved a growth rate of 10.8% in 2022-23 and the GVA of the sector grew by 71% from 2014-15.

Broad sector wise - Contribution (%)

Broad sector wise - Growth Rate (%)

Telangana vs. All-India

- Both the primary and tertiary sectors contribute more to the GSVA of Telangana as compared to their share in the GVA of India.
- At 17.4%, the contribution of the primary sector to the total GSVA in Telangana in 2022-23 is slightly higher than its contribution to the GVA of All India, at 17.3%.
- Contribution of the tertiary sector to the total GSVA in Telangana in 2022- 23 was 61.2%, 7.0 percentage points higher than the contribution of the tertiary sector to India's GVA at 54.2%.

Telangana vs. All India - Contribution (%)
